When athletes reflect, they improve.

When teams reflect, they connect.

When programs reflect, they become intentional about who they are and how they compete.

The **SUPPORTSMANSHIP** Resource Kit combines **Seeking SUPPORTSMANSHIP** with the **SUPPORTSMANSHIP GOLD** Reflection Deck to make reflection an intentional leadership habit. It provides coaches and student leaders with a simple system to build character, strengthen relationships, and make sportsmanship visible. In turn, this leads to:

- increased accountability and ownership
- stronger relationships across your program
- visible sportsmanship in practices and games
- student leaders and coaches who model the standard
- a healthier, more sustainable culture

REFLECT. LEAD. GROW.
